

## *Window Sign Regulations*

**A reminder to all businesses and retail establishments,**

**If your business location displays a wall sign, you are prohibited from displaying additional signage or lettering on the exterior of your windows. Additional signage or lettering placed on the exterior windows of your establishment is considered a second wall sign and prohibited by city ordinance. Additional signage or lettering may be displayed on the interior of windows with certain limitations.**

**Definition:**

*Window sign* means any type of sign located entirely within the interior of a building or structure, and placed near a window or door, the letters, numbers, pictorial or sculptured matter of which is visible from the exterior of the premises.
