1. AAAC recommends internal stairs instead of an exterior stairwell. (A 36" door is required if exterior door is installed).
2. Proposed window pattern is not in keeping with Georgian house style. Recommend something closer to original window mullions.
3. Door and sidelights should match the window pattern chosen.
4. Underneath the area where the secondary door is to be removed and replaced with a window, any replaced siding needs to match the original siding.
5. The submitted color of Stratton Blue HC-142(option B) is an approved historic color; however, the AAAC Committee recommends the house be repainted the same color. (Georgian and Craftsman style homes are traditionally yellow with white trim.)
6. Recommend the front porch floor be painted slate grey or an approved historic porch paint color.

Recommendation:

If the house is painted yellow with white trim, the sign should be yellow with white columns and trim.
